### HYATTSVILLE.

Miss Lillie M. Rushe, or as she now is, Mrs. E. D. Frye, daughter of Mr. and Mrs. J. Frank Rushe, of this town, who has been missing from her home since Thursday night, and for whom a general police alarm had been sent out, was located in Cumberland last night. It appears that she and E. D. Frye, of 1357 O's place, Washington, left here Thursday night and were married in Cumberland some time during Friday. In a telephone conversation with her mother last night, Mrs. Frye said the reason for her act was because she was afraid she would be opposed by her parents, and decided an elopement was the best.

Charles Chatus, formerly of Hyattsville, recognized Mrs. Frye, and, knowing of the search being made, advised her to inform her parents of her whereabouts, which she did. Mr. Frye is a traveling man, and as soon as he finishes his present trip, the couple will return here.

### CONGRESS HEIGHTS.

The Public Improvement Association of Congress Heights at a meeting last night decided to request a public hearing before the Utilities Commission when the question of street railway facilities can be thoroughly gone over, and a definite agreement reached. At present practically all cars operating from Congress Heights go by the Center Market route, thereby necessitating transfer by passengers at First and E streets southeast, who desire to go to Union Station or in that direction. If it is desired to go out East Capitol street or North Capitol, it is necessary to pay another fare, as the company will not issue a transfer on a transfer. What the citizens desire is the transfer point changed to Anacostia. The fact that there is a shelter in Anacostia, and none at First and E streets, also makes it more desirable for winter months. The proposed extension along Nichols avenue to U'sal street was also discussed.

At the last meeting of the association the question of having the high stone wall around the grounds of the Government Hospital for the Insane replaced with an iron fence, was considered. Several years ago provision was made that in case the Botanic Gardens were moved, the high iron fence then used would be used to replace the stone fence at the hospital grounds.

Additional street lights will be placed on Sterling street west of Nichols avenue, and also the light in the tree at Seventh street and Alabama avenue, will be moved so as to be of more use.

The school committee, of which Charles E. Parry is the chairman, made a report. It was stated that the kindergarten class had been in session since the opening of the present school term, and that it has had an average attendance of about thirty. The committee is endeavoring to obtain a large hall to be used at this school to announce the time. At present a small hand bell is being used. It was also said that an appropriation would be asked for from the next Congress to place a sidewalk around the school grounds. A hedge is now being placed there.

The question of providing a public playground in the suburb is one that will be given consideration during the next few weeks. A letter was read from E. S. Martin, supervisor of playgrounds, asking co-operation of the association in providing such grounds.
